

A Finale of Blood and Covenant!
Hebrews 10: 1-14

The need for blood sacrifice is central to realizing what happened on Good Friday.

Virtually every human culture at some time observes or observed blood sacrifice.

Blood sacrifice involves the death of a victim for the maintenance of a relationship between man who does the sacrifice and whoever the sacrifice is made to.

From the earliest times, God had insisted on blood sacrifice as the ground upon which He was to be approached.

Jesus, our priest and our lamb, is sat down until every enemy has been put under His feet.
